AT BOLLÉ, IT'S ALL ABOUT **INNOVATION AND ENVIRONMENTAL RESPONSIBILITY**. WE DESIGN CUTTING-EDGE PRODUCTS **MADE WITH RENEWABLE OR RECYCLED MATERIALS, SUCH AS RECYCLED POLYESTER AND RENEWABLE CASTOR OIL**.

AS ONE OF THE LEADERS IN THIS FIELD, BOLLÉ LAUNCHES 4 NEW ECO-DESIGNED* GOGGLES & HELMETS AND SWITCHES 2 EXISTING MODELS TO ECO, BRINGING THE ECO-DESIGNED APPROACH TO 20 MODELS.

BOLLÉ'S SUSTAINABILITY EFFORTS, AIMING FOR **90% OF THE RANGE TO BE ECO-DESIGNED* BY 2027**, HAVE BEEN RECOGNISED BY **THE RECENT B CORP CERTIFICATION**, WHICH INDEPENDENTLY VALIDATES OUR SOCIAL AND ENVIRONMENTAL PERFORMANCE. ALL DETAILS AND INFO CAN BE FOUND IN THE COMPANY'S SUSTAINABLE DEVELOPMENT REPORT.

* AT BOLLÉ, A PRODUCT IS CONSIDERED TO MEET OUR ECO-DESIGN CRITERIA WHEN AT LEAST 20% OF ITS TOTAL WEIGHT IS COMPOSED OF RECYCLED OR BIO-BASED MATERIALS, AS VERIFIED THROUGH INTERNAL CALCULATIONS.

Corporation

PHOTOCHROMIC PERFORMANCE

Phantom lens technology achieves a wide range of visible light transmission, ensuring precise visual acuity in all weather conditions, including the most extreme. Our lens tint reaches **70% of its full activation within 20 seconds**.

PROTECTIVE COATING

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical.

PLATINUM represents the highest level of expertise in anti-fog and anti-scratch protection.

With **Phantom and Phantom+**, Bollé brings this expertise to everyone combining a higher performing anti-fog with an anti-scratch that is 40% more durable than the standard.

HIGH IMPACT RESISTANCE

NXT⁺ lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT⁺ is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

STABILITY

Bollé has advanced the performance of photochromic technology to an entirely new level. The Phantom lens with exclusive LTS Technology (Low Temperature Sensitivity), delivers improved activation, **darkening or lightening whether the temperature is -25°C or 5°C**.

OPTICAL CLARITY

Made with NXT⁺ material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT⁺ material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

POLARIZATION

Polarized lenses are largely recognized today for their benefits in terms of blocking reflected glare. So it felt right to add them to our already unbeatable lens technology to improve its performance by yet another step. Equipped with Phantom+ lenses, you will be ready to take on any adventure.

VISION ENHANCEMENT

The Bollé 50% polarized film works like a moderately dense net that reduces distracting glare while getting enough light transmission through the lens in order to distinguish ice from snow. Phantom+ equipped with this technology offers an optimized reading of the terrain while reducing eye fatigue.

THE FIRST LENS EVER DEVELOPED WITH ARTIFICIAL INTELLIGENCE.

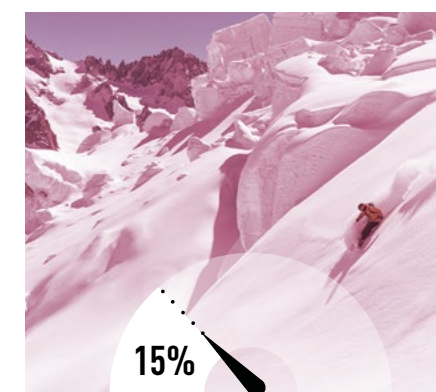

1. Find out which wavelengths to enhance or dampen
2. Design and develop the chemical compounds (pigments) that will absorb the right wavelengths
3. Put together the perfect blend of pigments for the transmission curve we want to achieve

Get a perfect fit and a flawless view. The X7 OTG is engineered to elevate your over-the-glasses experience with precision and ease. Designed for uncompromised clarity and all-day comfort, it features a spacious interior that fits most prescription frames with ease. These semi-frameless goggles are equipped with a spherical injected double lens, offering bold style and a wide field of view. Our signature Flow Tech® venting ensures constant airflow, keeping fog at bay from your first turn to your last. For enhanced versatility, the X7 OTG is also available with Bolle's Phantom lens - featuring adaptive photochromic technology that automatically adjusts to changing light conditions for optimal vision at all times.

Ready to push your boundaries? Meet the CERRO - our new semi-frameless ski goggles designed to conquer the mountain with the perfect blend of performance and style. The oversized cylindrical lens expands your field of vision, letting you read the terrain and react in real time. Thanks to Flow Tech® venting, the CERRO maintains consistent airflow and prevents fog build-up, keeping your vision crystal clear from your first drop to your final turn. Engineered for all-day comfort, the CERRO features triple-layer face foam that conforms to your face for a secure, plush fit. For ultimate versatility, it's also available with a cutting-edge photochromic lens that automatically adapts to changing light - from dawn patrol to bluebird afternoons.

Designed for riders who need a touring-ready solution at hand, the YPSOS MIPS is an ultra-lightweight helmet, certified for both alpine skiing and climbing. Experience safe and comfortable skiing thanks to high-performance features such as the Top Strike PC shield, removable headlamp clips and earpads, and a thermoregulating merino-lyocell lining. Equipped with Mips for optimal safety, the YPSOS MIPS benefits from our eco-design approach with the plastic and fabric parts made from recycled materials.

Introducing ZENOS MIPS — proof that high-end protection doesn't require compromise. This helmet is built for total commitment. It combines the MIPS® brain protection system with AVID Progressive EPS, engineered to absorb a wide range of impact forces and keep you protected when it matters most. Thanks to its lightweight in-mold construction, the ZENOS MIPS is made for all-day wear without weighing you down. An adjustable ventilation system ensures optimal airflow, keeping you cool and comfortable from the first lift ride to the final descent. Inside, a plush lining and integrated neck roll work together with our 360° Click-To-Fit™ system and Fidlock magnetic buckle to deliver a secure, custom fit — so you can focus on your line, lap after lap.

Built to push your limits, offering top-tier protection without compromise. The ZENOS PURE delivers the performance you need for an unforgettable day on the mountain. Ride with total confidence. This helmet features our proprietary AVID Progressive EPS, engineered to absorb a wide range of impact forces so you can focus on the run, not the risk. With its lightweight in-mold construction, the ZENOS PURE is designed for all-day wear without weighing you down. Its adjustable ventilation system ensures optimal airflow, keeping you cool from the first lift ride to the last descent. A plush soft lining and neck roll work together with our custom 360° Click-To-Fit™ system to provide a comfortable and secure fit, letting you maintain your line, lap after lap.

Forget everything you know about visor helmets with the X-FUSION MIPS. Redefining the standards with its fully integrated photochromic visor, the X-Fusion system allows for a flawless harmony between the helmet and the visor, including for people wearing ophthalmic glasses. Offering a wide field of view under any type of weather condition, it also provides exceptional comfort and a perfect fit thanks to its Fidlock magnetic buckle, its BOA fit system, and its padding in merino-lyocell. Equipped with Mips for optimal safety, the X-FUSION MIPS benefits from our eco-design approach with the visor, plastic and fabric parts made from recycled materials.
